F-FUI-01335	1702	A	functional	test			The FOS intends on providing an "undo" capability where applicable. **Item c.: Window resizing capability is provided for most windows. Window resizing will only be applicable in cases where the resize does not interfere with the functionality provided by the window. Some tools provided by FOS contain complex widgets that cannot be resized without impairing the functionality provided by these tools.**	The FOS shall allow the user to perform typical windowing desktop control with the pointing device, including: a. window focus selection b. window movement c. window resizing d. window closing e. window iconifying	EOC-9010#A
